BIRTHS AND DEATHS AMONGST THE INDIAN POPULATION

APPENDICE I

NAISSANCES ET DÉCÈS PARMI LA POPULATION INDIENNE

APPENDIX I

BIRTHS AND DEATHS AMONGST THE INDIAN POPULATION

The totals of births, deaths and marriages presented in the general tables of the present report include returns for Indians, resembling in this respect the corresponding tables of previous reports. The births and deaths of Indians are only a very small part of the total for Canada, but this is not true to the same extent for certain provinces taken separately. Moreover, in particular aspects of Vital Statistics, e.g., deaths from tuberculosis, their number is proportionately much greater than the proportion of the Indian population. Consequently, in the present as in several previous volumes, it has been thought well to supplement the general tables with an appendix containing the most important figures concerning births and deaths of Indians. Not only will these figures make possible a special study of the vital statistics of the Indian population, but they will also enable the reader to eliminate from the general tables the influence of Indian births or deaths.

The term "Indian" as used in these tables includes half-breeds, whenever the statement of racial origin on the death certificate makes their identification possible.

Indian marriages cannot be separately tabulated, since the racial origin of bride and groom is not given on the marriage certificate.

The Vital Statistics for Indians cannot be considered as complete as those for the white population. With regard to the accuracy of particular aspects of the statistics, such as ages, it is probable that in many cases the knowledge of the informants is vague. As to reported causes of death, a great many of these are by persons other than physicians.

APPENDICE I

NAISSANCES ET DÉCÈS PARMI LA POPULATION INDIENNE

Les totaux des naissances, décès et mariages dans les tableaux d'ensemble du présent rapport comprennent ceux des Indiens, comme dans les tableaux correspondants des rapports antérieurs. Les naissances et les décès chez les Indiens ne forment qu'une portion minime du total national, mais il n'en est pas ainsi dans la même mesure pour certaines provinces étudiées séparément. De plus, sous certains aspects des statistiques vitales, comme dans les décès causés par la tuberculose, leur nombre est proportionnellement plus grand que celui de la population indienne. En conséquence, dans le présent ouvrage comme dans plusieurs de ceux qui l'ont précédé, on a cru sage de compléter les tableaux d'ensemble en ajoutant un appendice contenant les chiffres les plus importants relativement aux naissances et aux décès chez les Indiens. Ces chiffres permettront au lecteur non seulement de faire une étude spéciale des statistiques vitales de la population indienne mais aussi d'écarter des tableaux d'ensemble, l'influence que pourrait avoir les naissances et les décès parmi les Indiens.

Le terme "Indien," dans ces tableaux, s'étend aux Métis partout où la déclaration relative à l'origine raciale sur le certificat de décès rend leur identification possible.

Les mariages d'Indiens ne peuvent être calculés séparément parce que l'origine raciale de l'époux et de l'épouse n'est pas donnée sur le certificat de mariage.

Les statistiques vitales des Indiens ne doivent pas être considérées comme étant aussi complètes que celles de la population blanche. Pour ce qui est de l'exactitude de certains aspects particuliers des statistiques, tels que l'âge par exemple, il est probable que dans plusieurs cas, les connaissances de ceux qui fournissent les renseignements sont vagues. Quant aux causes de décès elles sont, dans un grand nombre de cas, déclarées par des personnes autres que les médecins.

VITAL STATISTICS OF YUKON AND THE NORTHWEST TERRITORIES

APPENDICE II

STATISTIQUES VITALES DU YUKON ET DES TERRITOIRES DU NORD-OUEST

APPENDIX II

VITAL STATISTICS OF YUKON AND THE NORTHWEST TERRITORIES

The births, deaths and marriages reported for Yukon Territory and the Northwest Territories of Canada for the year 1945 are listed in the following tables. The statistics of these territories are presented separately from those of the provinces. The population of the territories is so small that the omission of their births, deaths and marriages makes no material difference to the total for Canada. The inclusion of the territories with the remainder of Canada in the more detailed tables would also increase out of all proportion to the importance of the territories, the number of cases for which information under a given rubric was not available.

APPENDICE II

STATISTIQUES VITALES DU YUKON ET DES TERRITOIRES DU NORD-OUEST

Les naissances, décès et mariages constatés au Yukon et dans les Territoires du Nord-Ouest en 1945 sont énumérés dans les tableaux suivants. Les statistiques de ces territoires sont séparées de celles des provinces. La population des territoires est tellement infime que l'omission de leurs naissances, décès et mariages n'influerait guère sur le total du Canada. L'inclusion de ces territoires avec les autres provinces du Canada dans les tableaux détaillés aurait comme conséquence d'augmenter, hors de toute proportion par rapport à l'importance des territoires, le nombre de cas non donnés sous une rubrique spécifique.

Twenty-sixth Annual Report

REPORT No. D.B.S. 21—1010—P

PREFACE

The present is the Twenty-sixth Annual Report on Vital Statistics to be issued by the Dominion Bureau of Statistics on data obtained under arrangement with Provincial Registration Departments. It is the twenty-first report covering all provinces.

Vital Statistics were classified on the basis of place of occurrence until 1944, when tabulation of births and deaths by place of residence was begun, births being classified by the residence of the mother. A number of special tabulations by place of residence have, however, been made for a few years prior to 1944.

The First, Second and Third Annual Reports contain a full account of the origin and purpose of the agreement between the Dominion and the provinces for the production of vital statistics, together with a sketch of the earlier development of these statistics in Canada. Registration of births, deaths and marriages is carried out by the provincial authorities, each province having passed an act making registration compulsory and prescribing that certain items of information be obtained on a uniform basis. Up to July 1, 1945, transcripts of all registrations filed in the provincial registration offices were forwarded to the Dominion Bureau of Statistics and from these the Annual Reports for the Dominion were compiled. Since that date, microfilm copies rather than paper transcripts have been utilized for this purpose. For the year 1946, in addition to the preparation of tables for the present volume, the Bureau of Statistics issued quarterly reports and a preliminary annual report, and supplied to all provinces the compilations required for their respective reports.

As in past years, the statistics of births, deaths and marriages among the Indian population of the provinces are included in the comparative and analytical tables and in the general summary tables of the present report. They are also given separately in Appendix I. The Vital Statistics of Yukon and the Northwest Territories are not included in the comparative and analytical tables or in the general summary tables, but a summary thereof appears as Appendix II.

In tables classified by "rural" and "urban" the term "Urban" for purposes of Vital Statistics includes cities, towns and villages of 1,000 population and over, "Rural" the remaining parts. The classification of cities, towns and villages is based upon the population as enumerated in the 1941 Census and in the case of the Prairie Provinces (Manitoba, Saskatchewan and Alberta) in the Census of 1946.

Tables dealing with deaths by cause have been compiled in accordance with the Fifth Decennial Revision recommended by the International Commission for classification of Diseases and Causes of Death, at Paris, France, in October, 1938. Appendix III shows the relation between the Intermediate and Detailed International Lists. Appendix IV gives the number of cases of certain notifiable diseases reported in Canada, by provinces, during each month of 1946.

The present volume is issued without text, resembling in this respect previous Annual Reports beginning with the Ninth. In order, however, to make available to the reader the essential figures for rates and comparisons, twenty-nine tables containing such figures have been included in the report. They comprise the first section, under the title "Comparative and Analytical Tables". The Canada Year Book contains a summary and analysis of the vital statistics for 1946 in comparison with previous years. Reprints of this summary may be obtained on application to the Vital Statistics Section, Dominion Bureau of Statistics.

The collection of the data and the preparation of the report were undertaken by the Vital Statistics Section in co-operation with the Provincial Vital Statistics Offices, under the direction of J. T. Marshall, Acting Director of the Health and Welfare Statistics Division.

Dominion Statistician.

RAPPORT N° D.B.S. 21—1010—P

PRÉFACE

Le Bureau fédéral de la statistique présente son vingt-sixième rapport annuel sur les statistiques vitales. Ce rapport est basé sur des renseignements obtenus en vertu de dispositions prises avec les divers services provinciaux d'enregistrement. Il est le vingt et unième rapport embrassant toutes les provinces.

Jusqu'en 1944, les statistiques vitales étaient classées selon le lieu de survenance. Depuis, les naissances et les décès sont classés d'après le domicile, les naissances étant classées selon le domicile de la mère. Un certain nombre de tableaux spéciaux ont été dressés d'après le domicile pour quelques années antérieures à 1944.

Le premier, le deuxième et le troisième de ces rapports annuels contiennent un exposé complet de l'origine et du but des ententes conclues entre le Dominion et les provinces en vue de l'établissement des statistiques vitales. Ils décrivent en outre brièvement les débuts de ces statistiques au Canada. Ce sont les autorités provinciales qui font l'enregistrement des naissances, des décès et des mariages, chaque province ayant adopté une loi d'enregistrement obligatoire et exigeant que certains renseignements soient obtenus sur une base uniforme. Des copies de tous les certificats provinciaux d'enregistrement ont été envoyées au Bureau fédéral de la statistique jusqu'au 1er juillet 1945 et ont servi à préparer les rapports annuels pour tout le Canada. Depuis, des copies microfilmées plutôt que dactylographiées sont utilisées à cette fin. En 1946, le Bureau fédéral de la statistique, en plus de préparer des tableaux pour le présent volume, a publié des rapports trimestriels et un rapport annuel provisoire et fourni à toutes les provinces les résultats des calculs dont elles avaient besoin pour leurs propres rapports.

Comme par le passé, les statistiques des naissances, des décès et des mariages parmi la population indienne des provinces ont été incorporées aux tableaux comparatifs et analytiques de même qu'aux tableaux sommaires généraux du présent rapport. Elles sont aussi données séparément dans l'appendice I. Les statistiques vitales des territoires du Yukon et du Nord-Ouest ne font pas partie des tableaux comparatifs et analytiques ni des tableaux sommaires généraux. Elles sont données en résumé dans l'appendice II.

Dans les tableaux dressés par régions "rurales" et régions "urbaines", le terme "urbaines" s'applique, en statistiques vitales, aux cités, villes et villages de 1,000 âmes et plus et le terme "rurales", aux régions qui restent. Les cités, villes et villages sont classés d'après le recensement de 1941 et, dans le cas des provinces des Prairies (Manitoba, Saskatchewan et Alberta), d'après le recensement de 1946.

Les tableaux portant sur les décès selon la cause ont été dressés conformément à la cinquième revision décennale recommandée à Paris, France, en octobre 1938, par la Commission internationale pour la classification des maladies et des causes de décès. L'appendice III indique la relation qui existe entre les listes internationales intermédiaire et détaillée. L'appendice IV donne le nombre de cas de certaines maladies déclarables constatés au Canada, par province, au cours de chaque mois en 1946.

Le présent ouvrage ne contient pas de texte. Il est semblable en ceci aux rapports annuels antérieurs, à compter du neuvième. Toutefois, pour que le lecteur ait toujours à la vue les chiffres les plus importants relatifs aux taux et aux comparaisons, vingt-neuf tableaux contenant ces chiffres ont été incorporés au rapport. Ces tableaux forment la première section intitulée "Tableaux comparatifs et analytiques". L'Annuaire du Canada contient un résumé et une analyse des statistiques vitales de 1946, comparativement aux années antérieures. Des copies de ce résumé peuvent être obtenues sur demande à la Section des statistiques vitales, Bureau fédéral de la statistique.

La réunion des données et la préparation du rapport ont été faites par la Section des statistiques vitales, en collaboration avec les bureaux provinciaux des statistiques vitales, sous la direction de M. J. T. Marshall, directeur suppléant de la Division de la statistique de la santé et du bien-être.

La version française a été préparée au Service de la traduction du Bureau fédéral de la statistique sous la direction d'Emile Boucher, chef.

HERBERT MARSHALL,
Statisticien du Dominion.

COMPARATIVE AND ANALYTICAL TABLES

TABLEAUX COMPARATIFS ET ANALYTIQUES

NOTES

Tables of births, deaths and marriages for Yukon and the Northwest Territories are given in Appendix II.

The figures of population in 1921, 1931 and 1941 are those given by the Census, those for Manitoba, Saskatchewan and Alberta in 1926, 1936 and 1946 are given by the census of the Prairie Provinces, while the figures for all the other years are estimates to the nearest thousand.

Divisions in British Columbia are census divisions and the correspondence of their subdivisions with those in Census publications is as follows: $5_A = 5a$, b, c, d; $5_B = 5e$, f; $6_A = 6a$, b, c; $6_B = 6d$, e, f; $8_A = 8a$, b, c, d; $8_B = 8e$, f, g; $9_A = 9a$; $9_B = 9b$; $9_C = 9c$, d, e; $9_D = 9f$; $10_A = 10a$; $10_B = 10b$; $10_C = 10c$, d.

"Urban" includes cities, towns and villages of 1,000 population and over, "Rural" the remaining parts. The classification of cities, towns and villages is according to the Census of 1946 in the Prairie Provinces and according to the Census of 1941 in the other provinces.

Les tableaux des naissances, des décès et des mariages pour le Yukon et les Territoires du Nord-Ouest sont donnés dans l'appendice II.

Les chiffres de la population en 1921, 1931 et 1941 sont ceux du recensement; ceux du Manitoba, de la Saskatchewan et de l'Alberta en 1926, 1936 et 1946 sont ceux du recensement des provinces des Prairies, et ceux de toutes les autres années sont des estimations au millier près.

Les divisions en Colombie-Britannique sont les divisions de recensement et leurs subdivisions correspondent comme il suit aux subdivisions figurant dans les publications du recensement: $5_A = 5a$, b, c, d; $5_B = 5e$, f; $6_A = 6a$, b, c; $6_B = 6d$, e, f; $8_A = 8a$, b, c, d; $8_B = 8e$, f, g; $9_A = 9a$; $9_B = 9b$; $9_C = 9c$, d, e; $9_D = 9f$; $10_A = 10a$; $10_B = 10b$; $10_C = 10c$, d.

"Régions urbaines" comprennent les cités, villes et villages ayant une population de 1,000 âmes et au-dessus, le reste est inclus avec "Régions rurales". La classification des cités, villes et villages est faite selon le recensement de 1946 dans les provinces des Prairies et selon le recensement de 1941 dans les autres provinces.

APPENDIX I

BIRTHS AND DEATHS AMONGST THE INDIAN POPULATION

APPENDICE I

NAISSANCES ET DÉCÈS PARMI LA POPULATION INDIENNE

APPENDIX I

BIRTHS AND DEATHS AMONGST THE INDIAN POPULATION

The totals of births, deaths and marriages presented in the general tables of the present report include returns for Indians, resembling in this respect the corresponding tables of previous reports. The births and deaths of Indians are only a very small part of the total for Canada, but this is not true to the same extent for certain provinces taken separately. Moreover, in particular aspects of Vital Statistics, e.g., deaths from tuberculosis, their number is proportionately much greater than the proportion of the Indian population. Consequently, in the present as in several previous volumes, it has been thought well to supplement the general tables with an appendix containing the most important figures concerning births and deaths of Indians. Not only will these figures make possible a special study of the vital statistics of the Indian population, but they will also enable the reader to eliminate from the general tables the influence of Indian births or deaths.

The term "Indian" as used in these tables includes half-breeds, whenever the statement of racial origin on the death certificate makes their identification possible.

Indian marriages cannot be separately tabulated, since the racial origin of bride and groom is not given on the marriage certificate.

The Vital Statistics for Indians cannot be considered as complete as those for the white population. With regard to the accuracy of particular aspects of the statistics, such as ages, it is probable that in many cases the knowledge of the informants is vague. As to reported causes of death, a great many of these are by persons other than physicians.

APPENDICE I

NAISSANCES ET DÉCÈS PARMI LA POPULATION INDIENNE

Les totaux des naissances, décès et mariages dans les tableaux d'ensemble du présent rapport comprennent ceux des Indiens, comme dans les tableaux correspondants des rapports antérieurs. Les naissances et les décès chez les Indiens ne forment qu'une portion minime du total national, mais il n'en est pas ainsi dans la même mesure pour certaines provinces étudiées séparément. De plus, sous certains aspects des statistiques vitales, comme dans les décès causés par la tuberculose, leur nombre est proportionnellement plus grand que celui de la population indienne. En conséquence, dans le présent ouvrage comme dans plusieurs de ceux qui l'ont précédé, on a cru sage de compléter les tableaux d'ensemble en ajoutant un appendice contenant les chiffres les plus importants relativement aux naissances et aux décès chez les Indiens. Ces chiffres permettront au lecteur non seulement de faire une étude spéciale des statistiques vitales de la population indienne mais aussi d'écarter des tableaux d'ensemble, l'influence que pourrait avoir les naissances et les décès parmi les Indiens.

Le terme "Indien," dans ces tableaux, s'étend aux Métis partout où la déclaration relative à l'origine raciale sur le certificat de décès rend leur identification possible.

Les mariages d'Indiens ne peuvent être calculés séparément parce que l'origine raciale de l'époux et de l'épouse n'est pas donnée sur le certificat de mariage.

Les statistiques vitales des Indiens ne doivent pas être considérées comme étant aussi complètes que celles de la population blanche. Pour ce qui est de l'exactitude de certains aspects particuliers des statistiques, tels que l'âge par exemple, il est probable que dans plusieurs cas, les connaissances de ceux qui fournissent les renseignements sont vagues. Quant aux causes de décès elles sont, dans un grand nombre de cas, déclarées par des personnes autres que les médecins.

APPENDIX II

VITAL STATISTICS OF YUKON AND THE NORTHWEST TERRITORIES

APPENDICE II

STATISTIQUES VITALES DU YUKON ET DES TERRITOIRES DU NORD-OUEST

APPENDIX II

VITAL STATISTICS OF YUKON AND THE NORTHWEST TERRITORIES

The births, deaths and marriages reported for Yukon Territory and the Northwest Territories of Canada for the year 1946 are listed in the following tables. The statistics of these territories are presented separately from those of the provinces. The population of the territories is so small that the omission of their births, deaths and marriages makes no material difference to the total for Canada. The inclusion of the territories with the remainder of Canada in the more detailed tables would also increase out of all proportion to the importance of the territories, the number of cases for which information under a given rubric was not available.

APPENDICE II

STATISTIQUES VITALES DU YUKON ET DES TERRITOIRES DU NORD-OUEST

Les naissances, décès et mariages constatés au Yukon et dans les Territoires du Nord-Ouest en 1946 sont énumérés dans les tableaux suivants. Les statistiques de ces territoires sont séparées de celles des provinces. La population des territoires est tellement infime que l'omission de leurs naissances, décès et mariages n'influerait guère sur le total du Canada. L'inclusion de ces territoires avec les autres provinces du Canada dans les tableaux détaillés aurait comme conséquence d'augmenter, hors de toute proportion par rapport à l'importance des territoires, le nombre de cas non donnés sous une rubrique spécifique.
